Please RSVP by Thursday, March 25th to 818-776-0011

Waldorf education is a developmental, arts-based curriculum which focuses on the whole child – hands, heart and mind. A Waldorf school is like no other in look, feel and intention and truly brings learning beyond the academic. For more information we invite you to visit our website www.ValleyWaldorf.org or www.WhyWaldorfWorks.org

“What every parent would wish as the best for his or her children, Waldorf education provides. The fullest development of intelligent, imaginative, self-confident and caring persons is the aim of Waldorf education. The aim is solidly grounded in a comprehensive view of human development, in an intellectually and culturally rich curriculum, and in the presence of knowledgeable, caring human beings at every stage of the child’s education.”

Douglas Sloan, Ph.D., Professor of Education, Columbia University

Valley Waldorf City School of Los Angeles
